# Interview with a British NSDAP/AO-Veteran

## Part Two

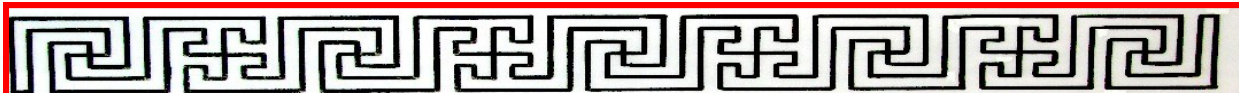

**NSK:** Please describe the influences, which directed you into this way. As being a British person, please describe your opinion on WW2.

**British AO-Veteran:** Being a child growing up in 1970s Britain there was a constant exposure to Hollywood War Movies and the uniforms and equipment of the German forces drew my attention. By far the largest number of model kits and toys soldiers were German. Stuka, Me262, Bismarck and HO/00 scale soldiers. Someone many years later would tell me „the blood of the vanquished is more sacred than the victor“ and there must be something in that. Another moulding experience was the TV documentary series „The World at War“. However it moulded me not as its producers expected. To see a country rise from the ruins of WW1 in a few years to become one of the world's most powerful nations was fascinating to see the newsreel footage of huge rallies and a people united in the fight for a National Socialist folk community had a profound effect on me.

For me WW2 was a Brothers War, it served no purpose other than that of the Communists, Plutocrats and International Financiers. It led to the breakup of the British Empire and created the U.S. monolithic power under the control of the usual suspects, which serves the interest of international finance to the cost of the rest of the world.

**Ian Stuart**

**NSK:** When did you join the NSDAP/AO?

**British AO-Veteran:** I must have been 15 at the time when I came across a sticker on a lamp-post emblazoned with the Swastika on one half and a slogan and the contact postal address in the U.S. (No e-mail or internet in those days )

**NSK:** Why did you join?

**British AO-Veteran:** I received an information packet in due course with stickers and some information leaflets explaining they were the continuation of the National Socialist movement in exile. They were not afraid to use the swastika as a rallying point. They proudly nailed their colours to the mast. These were the people for me.

**NSK:** You witnessed the rise of the National Front (NF) and the Skinhead subculture. Please describe the reasons for these political and social phenomena's.

**British AO-Veteran:** The rise of the National Front was due to large scale unemployment due to the death of traditional industries and large waves of immigration from Africa and Asia moving into areas already economically deprived with underfunded schools and whose children were further impoverished as funds were directed to providing English language lessons for these Third World arrivals.

The skinhead sub-culture came into being as a reaction to this background of lack of employment and a need for an identity against the darkening of the people of this land. It is now officially admitted that from 2001 to 2011, the percentage of the population of Britain that was White British decreased from 87.4% to 80.5%. (Governments lie and this is expected to be even lower in reality.) By 2050, according to government figures, White Britons will be a minority in their own country. You can be imprisoned for pointing out this official statistic!

**NSK:** Did you ever meet some of the influential people of the mentioned phenomenon? Ian

Stuart Donaldson, for example? If yes, please describe them for our readers.

**British AO-Veteran:** I grew up in the north of Scotland and the music scene was largely based in London. These were the days with only cheap photocopy „fanzines“. No internet, no e mail. I have though met a number of people over the years who were close Ian and who still help organise the annual ISD/Skrewdriver memorial gig. They have all been full of praise for Ian. He loved his music, but unlike many on the scene he was not in it for the money. He believed in the cause and saw music as a way of reaching out to the white youth of Britain with his Rock Against Communism label as a way to combat the lies of the “Anti-Nazi League” and the many mainstream bands of the time who were promoting race mixing.

**NSK:** What is your opinion regarding the historic conflict in Northern Ireland? I, for myself, think that brothers shooting at brothers there, misled by the Jew – no side has to be blamed for that. We are ONE Aryan blood, that has to be united (like, for example, “Day of the Sword“ says in their deep song “Blood Stained Emerald“ regarding that topic). For National Socialists outside of Ireland and Great Britain it is sad to witness such bloodshed among Aryan people.

What is your opinion? And what is the common opinion regarding this topic within the British movement?

**British AO-Veteran:** I agree that this is a sad situation and it is one that many non-British National Socialists cannot understand and who mistakenly believe that Sinn Fein and the IRA are/were Irish nationalists. I saw this myself at a number of the rallies at the Ijzerbedevaart at Diksmuide in Belgium. People would seek my views as a Scottish National Socialist. European Comrades were astounded to find that in reality Sinn Fein/IRA was and remains a Communist, race-mixing group. Sinn Fein IRA are perversion of nationalism we see them today as a group of woke leftists welcoming swathes of non-White immigrants into the is-

land of Ireland, North and South. In their own words from their 2020 Manifesto priorities “*Enacting robust hate crime legislation*”. They promote the genocide of the White race by supporting abortion on demand. They pretend to be interested in Irish culture by demanding the use of the Gaelic language in Northern Ireland whilst doing their utmost to destroy the white Aryan heritage of the whole island of Ireland. National Socialists world-wide should be wary of them. I had the pleasure of being in contact with the NSDAP/AO affiliate the National Socialist Irish Workers Party based in Dublin who first alerted me to the real nature of Sinn Féin. The Scottish Nationalist Party is much the same.

**NSK:** Please describe your current political work.

**British AO-Veteran:** I am busy working with Comrade Lauck and European comrades in producing an ever wider range of educational and propaganda material via print on demand outlets and electronic means. We use professional tools to translate Third-Reich era material into English and other languages. The UK

has a small but dedicated network of graphic artists, website developers and distribution points to decentralise this work. We fulfill orders for comrades living under the continued Occupation Government of Germany. We design, produce, and distribute stickers. (Remember, a simple sticker is what got me into the Movement in the first place.) We meet in person, or did before Covid, with counterparts on a regular basis. These were strategy meetings, organising the pooling of resources. Not the drunken, crying over pints of beer so often associated with narrow nationalism. These meetings have taken place over decades and have included meetings with Florentine Rost van Tonningen, Lady Mosley and Gudrun Burwitz, better known to your readers by her maiden name of Himmler.

These meetings continue electronically today till we can gather our “Brown International Brotherhood” in person again.

**NSK:** What is your opinion on UKIP, the Brexit and Boris Johnson per se? Would you consider one (or all) of it as a contribute to a national awakening, at least to some extent?

**British AO-Veteran:** UKIP was a state sanctioned safety valve, Farage was an international financier before he became involved in politics. He diverted many comrades away from more important issues. I campaigned for Brexit, though not with UKIP, spending many days leafletting, setting up market stalls and static demonstrations. It is important to keep in mind that British comrades are not anti-Europe. We are anti-fat cat capitalists who used the single market to flood Britain with cheap labour from Eastern Europe, and this was done by the so-called party of the workers, the Labour Party under Tony Blair. Folk comrades from the east are not to blame for this. They were victims of exploitation by the international financiers and plutocrats who were after cheap labour to increase their profits. Boris Johnson is a populist of the worst kind, a spoilt rich man who says what he thinks the people want, but then fails to deliver on any of it. He is another committed globalist. Look at the number of non-Whites

**Gudrun Himmler & Adolf Hitler**

and Jews in his government and his crony friends who are awarded government contracts.

**NSK:** Your country has already lost many people to Covid-19, mainly due to massive lack of prevention in the beginning and a weak healthcare system. Would you blame the government?

**British AO-Veteran:** Yes, entirely the fault of the government, and not just the present one but many past ones from both Labour and Conservative parties. Each of them have said we have to pay for medical prescriptions because we cannot afford to give the medicine for free, we have people in pain waiting years for operations because we cannot afford to expand our hospitals and recruit and train doctors and nurses. We have the least number of intensive care beds and ventilators per head of population in the western world because we are told we cannot afford more. We cannot provide

homes or health programmes for many of our ex-servicemen damaged both mentally and physically by fighting in the wars of the globalists because we are told we cannot afford it. Our pensioners have the worst pensions in the western world because we cannot afford to fund decent ones. But our governments always find enough money and resources to support illegal immigrants and asylum seekers. There is a seemingly bottomless pot of money for these invaders. And now the globalist ambitions have failed in Afghanistan our so-called leaders have said we will take 20,000 Afghans in. Countless RAF planes and 1000 troops were dispatched to Kabul to bring them here. This is on top of the almost 15,000 illegals who have crossed the English Channel so far in 2021, because we are told we cannot afford to protect our borders fully.

And whilst we cannot afford to look after our own folk we have the ridiculous situation

where the British Government is busy BORROWING money from international bankers to give it away in foreign Aid! In 2020 alone they borrowed £14.5 billion to give away. However it is not the government alone that is responsible for this situation. The British people have been warned by all the various nationalist/National Socialist groups about this for many years, but time and time again they voted for the old parties who have failed them in the past and do not join us in the fight for a New Order.

**NSK:** How strong is the enemy in your country?

**British AO-Veteran:** It would be foolish to deny the enemy is strong and in control of all the levers of power. They control and promote their agenda via many varied ways. They corrupt our youth in schools, they use the power of the state to detain and monitor anyone showing any sign of racial awareness using their “prevent” programme. Introduced it was said to fight Muslim terrorism it is used mostly to try and crush white dissent. Hundreds of thousands of people have been questioned and investigated by police for what they describe as “*non-crime hate incidents*”. It is not unknown for them to visit your employer to tell them of your being investigated to try and get you fired.

**NSK:** What are the main problems of your country nowadays?

**British AO-Veteran:** The main problem facing our country, and most of the Western world, is the lack of children. The Fuhrer said “Societies do not die out, they are born out”. Our people are so mesmerized by the pursuit of material wealth and careers they fail to see the biological imperative. Our young woman folk carry around small dogs instead of young children. White Children in primary schools are becoming outnumbered by these foreign invaders. We are being outbred by these parasites in our midst.

The problem of drugs in Scotland needs to be addressed. Scotland has the worst record of drug taking and deaths from drug abuse in Eu-

rope. This supposedly in a country being run by a “nationalist” government. The truth is the SNP are globalists and one suspects they see drugs deaths as another tool of decreasing the white population to make room for more immigrants. They do not attack the big drug lords, because they are mainly Muslim and the Scottish Health minister is .....Humza Yousaf, a Muslim

**NSK:** Which book(s) would you recommend and why?

**British AO-Veteran:** It goes without saying “Mein Kampf”. This is the basis of our creed.

“Hitler’s Revolution” by Richard Todor, which is available in both English and German language editions. It uses period documents to show the aims and achievements of the first National Socialist government and counters the lies of media of today. Note I say the first National Socialist government because it will not be the last.

“Merrie England 2000”, written by Colin Jordan in 1993, which predicted the madness we see today.

“A Train of Thought” and “National Socialism A World Creed for the 1980’s” again by Colin Jordan and available online to download at numerous sites. Indeed, any of Colin Jordan’s writings are highly recommended.

**NSK:** Thanks for the interview. Keep up the good work. Victory is ours!

Feel free to add some final words to the recipients.

**British AO-Veteran:** The odds against us seem impossible to overcome, but this should not let us give up hope. The same fanatical belief in the final victory is in the heart of every true National Socialist and together - whether you are part of a group or a “lone wolf” - we can turn the defeat of 1945 into but a lost battle in the continuing war from which we will finally emerge victorious.
